DATA SOURCE CONFIGURATION MODAL

The Data Source modal appears on first load and lets users choose between Demo Mode (fully offline), Internet Mode (live DuckDuckGo search), or Private Server Mode (on-premises enterprise deployment). Each option includes a clear compliance disclosure.

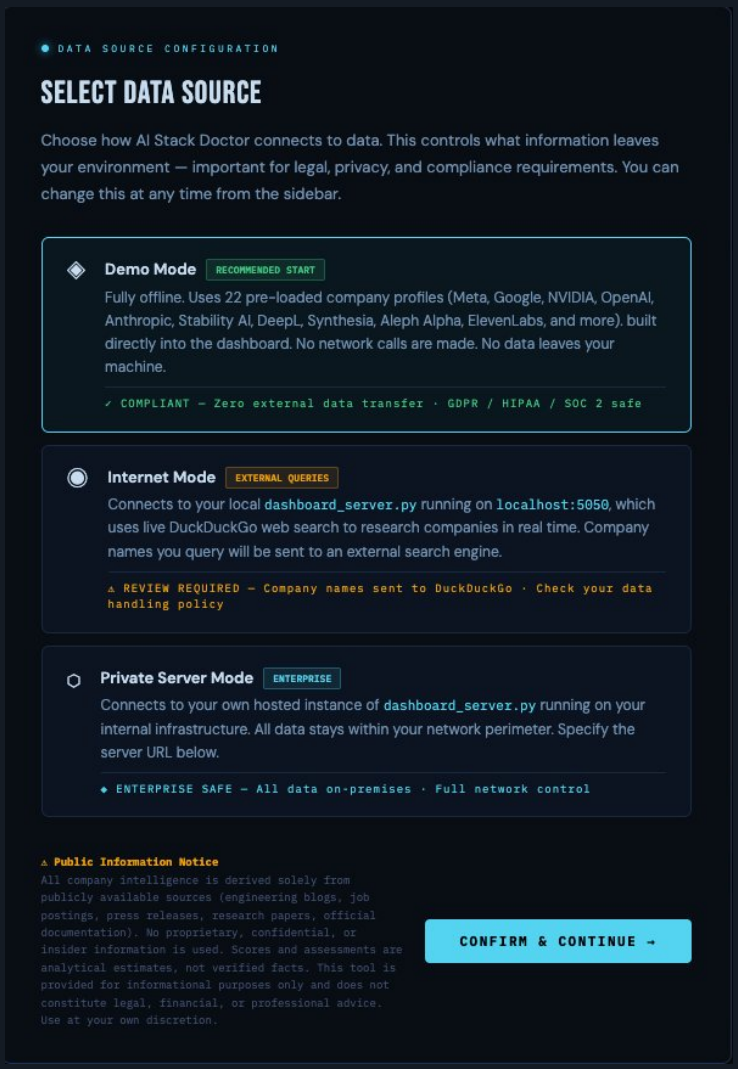

Fig 1 — Data Source Configuration Modal showing Demo, Internet, and Private Server modes with compliance disclosures and Public Information Notice.

INTELLIGENCE OVERVIEW DASHBOARD

The Intelligence Dashboard renders real-time audit data across all 22 tracked companies. The Overview page shows score distribution, category averages, and health band distribution. Navigation includes Company Cards, Trend Analysis, Comparison Radar, Audit History, Compliance Reference, and Integration Guide.

Fig 2 — Intelligence Overview Dashboard showing 22 companies tracked, avg score 78/100, score distribution bar chart, category averages, and health band donut chart.
